A symposium sponsored by the
Division of Agricultural and
Food Chemistry at the 172nd
Meeting of the American
Chemical Society, San Francisco,
Calif., Aug. 30–31, 1976

ACS Symposium Series 47

American Chemical Society
Washington, D.C. 1977
FOREWORD

The ACS Symposium Series was founded in 1974 to provide a medium for publishing symposia quickly in book form. The format of the Series parallels that of the continuing Advances in Chemistry Series except that in order to save time the papers are not typeset but are reproduced as they are submitted by the authors in camera-ready form. As a further means of saving time, the papers are not edited or reviewed except by the symposium chairman, who becomes editor of the book. Papers published in the ACS Symposium Series are original contributions not published elsewhere in whole or major part and include reports of research as well as reviews since symposia may embrace both types of presentation.
