Design Considerations for Toxic Chemical and Explosives Facilities

Ralph A. Scott, Jr., Editor
Defense Explosives Safety Board

Laurence J. Doemeny, Editor
National Institute for Occupational Safety and Health

Developed from a symposium sponsored by the Division of Chemical Health and Safety at the 194th Meeting of the American Chemical Society, New Orleans, Louisiana, August 30–September 4, 1987
Foreword

The ACS SYMPOSIUM SERIES was founded in 1974 to provide a medium for publishing symposia quickly in book form. The format of the Series parallels that of the continuing ADVANCES IN CHEMISTRY SERIES except that, in order to save time, the papers are not typeset but are reproduced as they are submitted by the authors in camera-ready form. Papers are reviewed under the supervision of the Editors with the assistance of the Series Advisory Board and are selected to maintain the integrity of the symposia; however, verbatim reproductions of previously published papers are not accepted. Both reviews and reports of research are acceptable, because symposia may embrace both types of presentation.
