Advances in Plant Phenolics: From Chemistry to Human Health
Library of Congress Cataloging-in-Publication Data

Names: Jayaprakasha, Guddadarangavvanahally K., editor.
Title: Advances in plant phenolics : from chemistry to human health / Guddadarangavvanahally K. Jayaprakasha, editor, Texas A&M University, College Station, Texas, United States, Bhimangouda S. Patil, editor, Texas A&M University, College Station, Texas, United States, Giuseppe Gattuso, editor, University of Messina, Messina, Italy ; sponsored by the ACS Division of Agricultural and Food Chemistry, Inc.
Identifiers: LCCN 2018042468 (print) | LCCN 2018043650 (ebook) | ISBN 9780841232952 (ebook) | ISBN 9780841232969 (print)
Classification: LCC QP801.P4 (ebook) | LCC QP801.P4 A38 2018 (print) | DDC 547/.632--dc23

Foreword

The ACS Symposium Series was first published in 1974 to provide a mechanism for publishing symposia quickly in book form. The purpose of the series is to publish timely, comprehensive books developed from the ACS sponsored symposia based on current scientific research. Occasionally, books are developed from symposia sponsored by other organizations when the topic is of keen interest to the chemistry audience.

Before agreeing to publish a book, the proposed table of contents is reviewed for appropriate and comprehensive coverage and for interest to the audience. Some papers may be excluded to better focus the book; others may be added to provide comprehensiveness. When appropriate, overview or introductory chapters are added. Drafts of chapters are peer-reviewed prior to final acceptance or rejection, and manuscripts are prepared in camera-ready format.

As a rule, only original research papers and original review papers are included in the volumes. Verbatim reproductions of previous published papers are not accepted.
