

ACS
LEGACY ARCHIVES
A LEGACY OF EXCELLENCE

2017 ACS Legacy Archives

Unlock timeless value!

Did you know that recent patents for many of the most prescribed drugs cite content from the Legacy Archives? **Some of the world's most cutting-edge discoveries are still being influenced by yesterday's research.** Get the ACS Legacy Archives and equip your researchers with 116 years of content that continues to grow in demand.

THE ESSENTIAL RESOURCE

The ACS Legacy Archives is the essential, multidisciplinary resource where today's researchers make tomorrow's leading discoveries. The best minds from more than 100 years of chemistry are represented in the ACS Legacy Archives, **including 185 Nobel Laureates in chemistry, physics, and physiology or medicine.** The full-text searching capabilities of these articles resulted in 9 million downloads in 2015.

ACCESS ANYWHERE

Combine with free ACS2Go for worldwide mobile access.

EMPOWERING

Fuel your institution's discovery with the multidisciplinary coverage of more than 460,000 articles spanning 116 years of scientific research. The ACS Legacy Archives are represented in all 80 Chemical Abstracts sections—**demonstrating the depth and breadth of the Legacy Archives content.**

ACS Publications
Most Trusted. Most Cited. Most Read.

What's in the ACS Legacy Archives

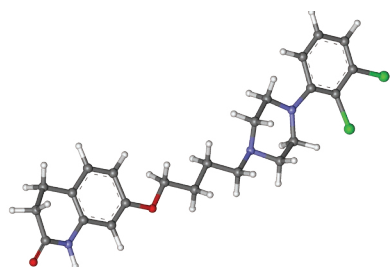

A license to the ACS Legacy Archives enables researchers to reach through history to understand the chain of discoveries that led to modern chemistry—and continues to advance modern discoveries in fields like biology, physics, medicine, agriculture, and engineering.

ACS Legacy Archives Journals and Coverage Dates

Journal	ACS Legacy Archives Coverage
Accounts of Chemical Research	1968–1995
Analytical Chemistry	1929–1995
Biochemistry	1962–1995
Bioconjugate Chemistry	1990–1995
Chemical Research in Toxicology	1988–1995
Chemical Reviews	1924–1995
Chemistry of Materials	1989–1995
Energy & Fuels	1987–1995
Environmental Science & Technology	1967–1995
Industrial & Engineering Chemistry Research	1909–1995
Inorganic Chemistry	1962–1995
Journal of Agricultural and Food Chemistry	1953–1995

Journal	ACS Legacy Archives Coverage
Journal of Chemical & Engineering Data	1956–1995
Journal of Chemical Information and Modeling	1961–1995
Journal of Medicinal Chemistry	1959–1995
Journal of Natural Products	1979–1995
Journal of the American Chemical Society	1879–1995
Langmuir	1985–1995
Macromolecules	1968–1995
Organometallics	1982–1995
The Journal of Organic Chemistry	1936–1995
The Journal of Physical Chemistry	1896–1995

Top Prescribed Drugs of 2015 Citing ACS Legacy Archives Content:

Drug Name: Aripiprazole

Sold As: Abilify®

ACS Citations From Patent: US 4824840 A

Derivatives of 3,4-dihydrocarbostyryl as .beta.-adrenergic blocking agents

Journal of Medicinal Chemistry, 1974

DOI: 10.1021/jm00251a013

Synthesis and central nervous system depressant activity of some 5-(2-substituted alkyl)-2-oxazolidinones

Journal of Medicinal Chemistry, 1973

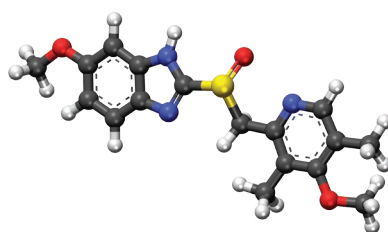

DOI: 10.1021/jm00268a012

Synthesis and central nervous system depressant activity of new piperazine derivatives. I

Journal of Medicinal Chemistry, 1968

DOI: 10.1021/jm00308a032

Abilify is a registered trademark of Otsuka Pharmaceutical Co.

Drug Name: Esomeprazole

Sold As: Nexium®

ACS Citations From Patent: US 6875872 B1

Nucleophilic substitution at tricoordinate sulfur

Chemical Reviews, 1976

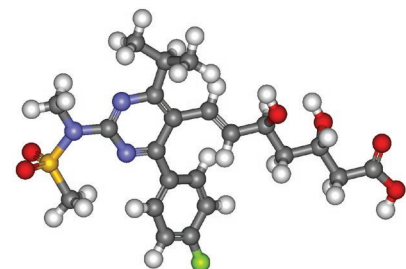

DOI: 10.1021/cr00304a004

Racemization and cleavage of sulfoxides by methylithium

Journal of the American Chemical Society, 1967

DOI: 10.1021/ja00996a026

Nexium is a registered trademark of AstraZeneca.

Drug Name: Rosuvastatin

Sold As: Crestor®

ACS Citations From Patent: US RE37314 E1

Relationship between tissue selectivity and lipophilicity for inhibitors of HMG-CoA reductase

Journal of Medicinal Chemistry, 1991

DOI: 10.1021/jm00105a071

Synthesis and biological activity of new HMG-CoA reductase inhibitors. 1. Lactones of pyridine- and pyrimidine-substituted 3,5-dihydroxy-6-heptenoic (-heptanoic) acids

Journal of Medicinal Chemistry, 1990

DOI: 10.1021/jm00163a010

Biosynthesis of the hypocholesterolemic agent mevinoxin by *Aspergillus terreus*. Determination of the origin of carbon, hydrogen, and oxygen atoms by carbon-13 NMR and mass spectrometry

Journal of the American Chemical Society, 1985

DOI: 10.1021/ja00298a046

Crestor is a registered trademark of AstraZeneca.
